SEE THINGS FROM A NEW PERSPECTIVE

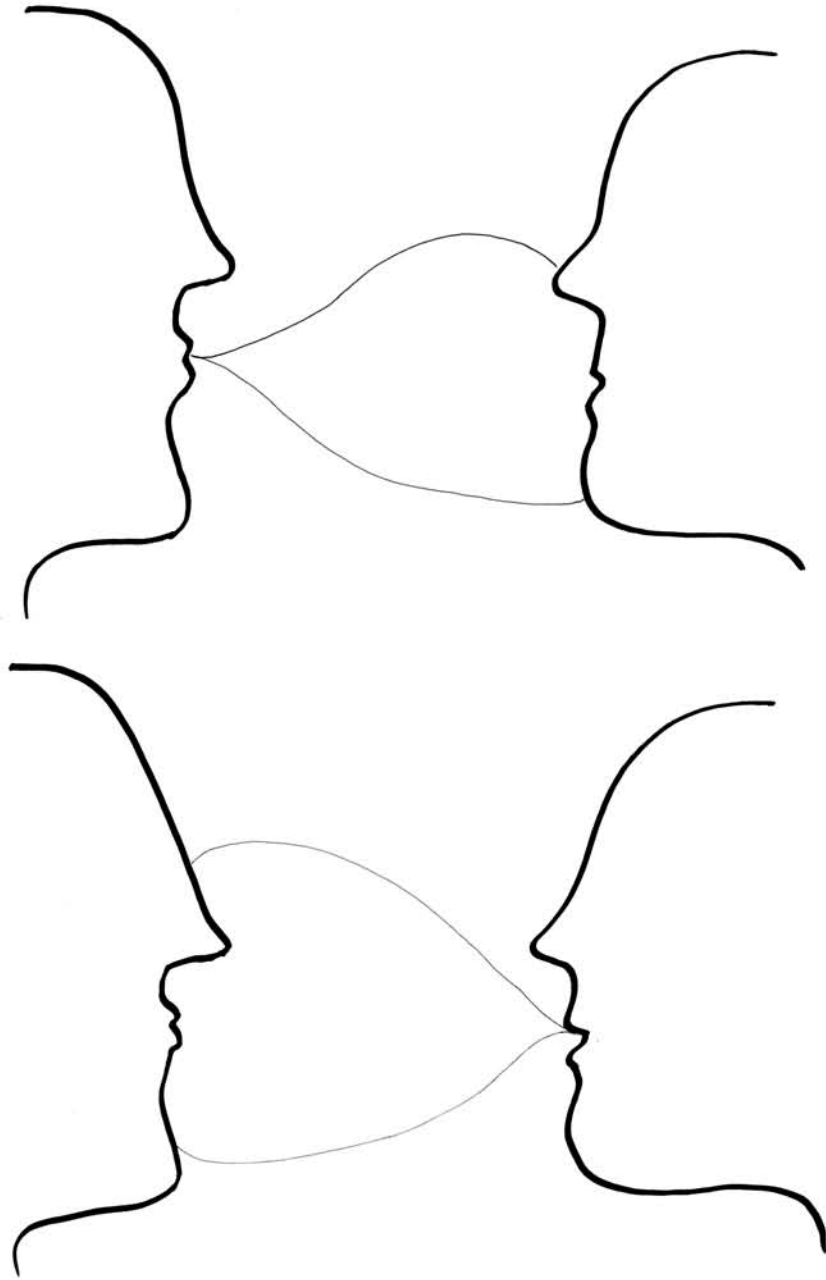

One of the biggest Issues for the human being is the fear of not being received.
We start very early in our lives to change who and what we are to fit in.
We stop listening deeper to ourselves.

This seminar opens up creativity, cooperation skills and communication skills
for individuals and groups. From chaos to cosmos.
Every participant will grow his own potential. Talent and personality will shine
from each person and everything will be possible to achieve.

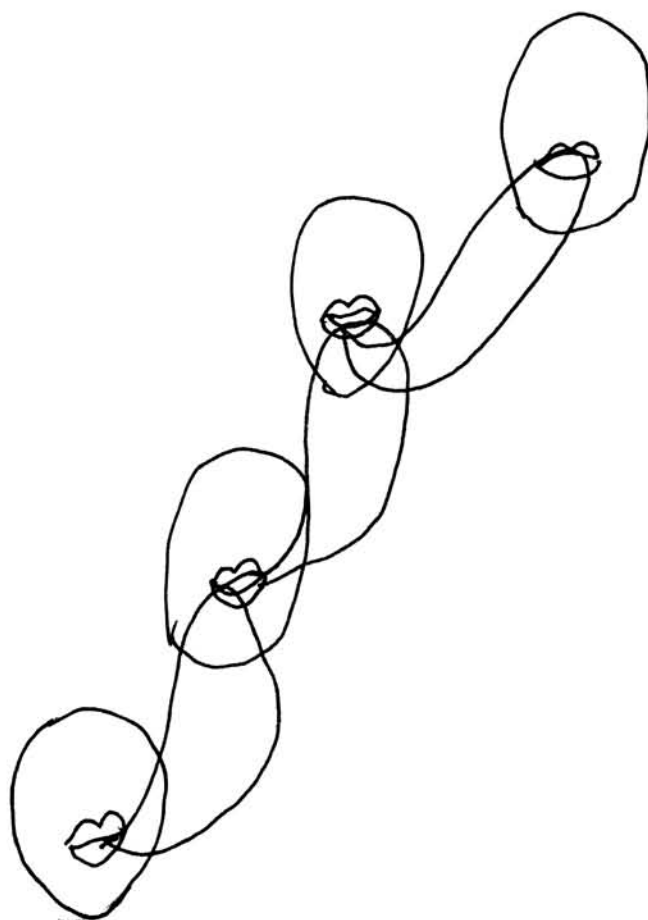

By following the seminar with live drawing during the process, the participants
get a stronger feedback on their activities.
Things can be seen from another perspective and get visualized.
In terms of sustainability the drawings help to memorize the event and strengthen
the feeling of having experienced a creative interaction together.
